CONGRATULATIONS!

You're now the proud owner of a ROCCAT™ Ryos MK Glow – Illuminated Mechanical Gaming Keyboard, the most advanced, most customizable mechanical keyboard ever – NOBODY comes close! With an eye-watering number of configuration options, awesome 100+ L.E.D. key-illumination and high-quality CHERRY® MX key switches, you can break out – and unleash the gaming beast within.

Easy-Shift[+]™

Easy-Shift[+]™ doubles the number of keys you have at your disposal – meaning you won't have to hunt for keys in the heat of the battle. It's as easy as holding down the Easy-Shift[+]™ key and hitting the key of your choice to activate its secondary function.

Macro Live! recording

Macro Live! technology makes in-game macro recording a joy. Just hold down the function key, hit the record button, and let the sound feedback tool talk you through the quick and easy recording process, step by step – it's that simple.

CHERRY® MX key switches

Locked and loaded with best-in-the-industry CHERRY® MX mechanical key switches. With an eye-watering 50 million key stroke durability, you can count on these switches during intense gaming sessions.

ROCCAT™ EASY-SHIFT[+]™

DUPLICATE YOUR KEYS WITH EASY-SHIFT[+]™

The innovative ROCCAT™ driver software allows you to quickly and easily re-map the primary key functions of virtually every key on the keyboard. Enabled by the Easy-Shift[+]™ key, you can also assign a secondary key function to those keys – effectively doubling the number of keys you have at your disposal. Factor in the fact that you can record and store on board over 500 macros, and you've got an insanely customizable keyboard on your hands.

MASTERFUL MACRO CONTROLS

New enhanced Macro Live! technology makes in-game macro recording a joy. Simply hold down the function key, hit the Macro Live! recording button, and let the handy sound feedback tool talk you through the quick and easy recording process, step by step. Thanks to the powerful 2 MB of flash memory, all of your macros are saved onto the keyboard itself, not the driver – giving you the freedom to lay down any orders without delay. And you won't have to leave your game to do it.

Double up your keys: program a secondary key function in the ROCCAT™ driver and then enable it by holding down the strategically-placed Easy-Shift[+]™ key.

EASY-SHIFT[+]™ EXAMPLES:

[+] = Easy-Shift[+]™ key

Easy-Shift[+]™ WoW:

[+] + 1 = Mount up	[+] + A = Use hearthstone
[+] + 2 = Dismount	[+] + S = Autorun
