## 10 E-MAILING A PICTURE

Using the OLYMPUS Master software (included), you can share your pictures with others by using the built-in e-mail feature.

After installing OLYMPUS Master, open the program and click "🖼 Browse Images". From the "Browse" window, select the picture(s) you want to send and click the "🖼 E-mail" tool button.

At this time, you can resize your pictures to make them more manageable for e-mail. This helps you stay within the e-mail capacity limitations set by your e-mail provider.

When finished, click the "🖼 Launch Mailer" button at the bottom of the window. Your default e-mail program will open, and the selected picture(s) will automatically be attached to a new message.

## 11 PRINTING A PICTURE

Using the OLYMPUS Master software (included), you can make prints of your pictures using your home photo printer.

After installing OLYMPUS Master, open the program and click the "Print Images at Home" icon on the main menu. You can create many different types of prints such as an index print, photos, albums, or calendars. Simply select the image(s) and add them to one of the many layouts within OLYMPUS Master. For detailed instructions, please refer to the "Help" menu in the software.
You can also order prints online using the "Online Print" feature in OLYMPUS Master.

Alternatively, you can print your pictures by connecting your PictBridge* compatible camera directly to a PictBridge* compatible printer, such as the Olympus P-10 Digital Photo Printer. This permits fast, easy printing without using a computer.

* For detailed instructions on using PictBridge, please refer to your camera's Advanced Manual included in digital format on the CD-ROM.
