

ELECTRIC KETTLE VT-7089

The liquid heating appliance (kettle) is intended for boiling drinking water only.

DESCRIPTION

- Kettle flask
- Kettle spout
- Mesh filter
- Lid opening button
- Lid contact
- Handle
- Water level scale
- Indicator
- Kettle setting indicator
- On/off button
- Temperature maintenance button +40°C, 70°C, 90°C
- Water boiling button +100°C
- Keep warm mode button +S
- Cord storage

ATTENTION!

For additional protection it is reasonable to install a residual current device (RCD) with nominal operation current not exceeding 30 mA, installed RCD, contact a specialist.

SAFETY MEASURES

Before using the unit, read this manual carefully and keep it for future reference. Use the unit as intended purposes only, as specified in this manual. Mishandling the unit can lead to its breakdown and cause harm to the user or damage to his/her property.

- Use the unit for its intended purpose only and in strict accordance with the instruction manual.
- Make sure that your home mains voltage corresponds to the voltage specified on the unit body.
- The power cord is equipped with a «europlug»; plug it into the socket with a reliable grounding contact.
- To avoid the risk of fire, do not use adapters for connecting the kettle to the mains.
- Do not use the kettle in bathrooms. Do not use it near swimming pools or other containers filled with water.
- Do not use the kettle near heat sources or open flame.
- Do not use the unit in places where aerosols are sprayed or highly flammable liquids are used.
- Do not use the kettle outdoors.
- Do not leave the operating kettle unattended.
- Place the kettle on a flat stable surface; do not place the kettle on the edge of a table.
- Do not direct the kettle spout at wooden furniture, electrical appliances, books and objects which can be damaged by moisture, hot steam.
- Before switching the kettle on, make sure that it is placed on the base evenly.
- Use only the base supplied with the unit.
- Do not let the power cord hang from the edge of the table and make sure it does not touch hot surfaces or sharp edges of furniture. You can adjust the power cord length by winding it around the base.
- Do not touch the power cord and the power plug with wet hands.
- Do not switch the kettle on if it is empty.
- Do not fill the kettle with water when it is standing on the base.
- Do not use the kettle if the lid is not closed tightly or without the anti-scale filter.
- Take the kettle off the base before opening the lid.
- Use the kettle only for boiling drinking water, do not heat or boil any other liquids.
- Ensure that the water level in the kettle is not below the minimal mark «MIN» and not above the maximal mark «MAX». If the water level exceeds the maximal mark, boiling water can splash out of the kettle during boiling.
- To avoid burns by hot steam, do not bend over the kettle spout while it is operating.
- Do not open the kettle lid while water boiling.
- Do not touch hot surfaces of the kettle, take it only by the handle.
- Be careful while carrying the kettle filled with boiling water.
- Do not touch the kettle when it is cooling down.
- Be careful when you pour water out of the kettle, do not tilt the kettle sharply and at more than 45°, in case of careless use water may splash and cause harm to the user or their property.
- Unplug the kettle base before cleaning and when you are not using the kettle. Never pull the power cord when disconnecting the base from the mains; take the power plug and carefully remove it from the mains socket.
- To avoid electric shock, do not immerse the unit and the base into water or any other liquids.
- Do not wash the kettle and the base in a dishwashing machine.
- This unit is not intended for use by children.
- Place the unit out of reach of children during the operation and cooling down.
- Do not allow children to touch the unit body and the power cord during the unit operation.
- The kettle is not intended for use by physically or mentally disabled persons (including children) or persons lacking experience or knowledge if they are not under supervision of a person who is responsible for their safety or if they are not instructed by this person on the usage of the unit.
- Do not let children unsupervised to play with the unit as a toy.
- For children safety reasons do not leave polyethylene bags, used as packaging, unattended.

- ATTENTION! Do not allow children to play with polyethylene bags or packaging!**
- DANGER OF ELECTRIC SHOCK!**
 - Check the power cord, the power plug and the kettle body integrity periodically.
 - Never use the kettle if the power cord or the power plug is damaged, if the unit works improperly or after it was dropped.
 - Do not attempt to repair the unit. Do not disassemble the unit by yourself, if any malfunction is detected or after it was dropped, unplug the unit and apply to any authorized service center from the contact address list given in the warranty certificate and the website www.vitek.ru.
 - Transport the unit in the original packaging only.
 - Keep the unit out of reach of children and disabled persons.

THE UNIT IS INTENDED FOR HOUSEHOLD USE ONLY. ITS COMMERCIAL USAGE AND USE IN PRODUCTION AREAS AND WORK SPACES IS PROHIBITED.

BEFORE THE FIRST USE
After unit transportation or storage at low temperature keep it for at least three hours at room temperature before switching on.
There may be water spots in the kettle, this is normal, as the unit has undergone factory quality control.

- Unplug the kettle and remove any advertising stickers that can prevent the unit operation.
- Check the unit for damages; do not use it in case of damages.
- Make sure that the unit operating voltage corresponds to the voltage of your area.
- Wipe the outer surface of the flask (1) and the base (8) with a slightly damp cloth, then wipe them dry.
- Open the lid (5) by pressing the button (4).
- Fill the kettle with water up to the maximal mark «MAX», determine the water level using the water level scale (7), close the lid (5).
- Insert the base (8) plug into the mains socket, you will hear a sound signal and the indicator (9) will be flashing.
- Place the kettle on the base (8), the indicator (9) will stop flashing and will glow constantly and the water boiling button (12) +100°C illumination will light up.
- Place the kettle on the base (8), the indicator (9) will stop flashing and will glow constantly and the water boiling button (12) +100°C illumination will light up.
- Press the button (10) +, again, you will hear a sound signal, the button (10) will light up and the kettle will be switched on in the boiling mode.
- Note: If the kettle is switched off, the indicator (9) and the buttons illumination do not glow, press the water boiling button (12) +100°C, the button (10) illumination will light up, and press the on/off button (10) +, once, the button (10) illumination will light up and the kettle will be switched on in the boiling mode.
- After the water starts boiling, you will hear a sound signal, the kettle will be switched off and the button (10) + illumination will go out.
- Use the unit as intended purposes only, as specified in this manual. Mishandling the unit can lead to its breakdown and cause harm to the user or damage to his/her property.
- Make sure that your home mains voltage corresponds to the voltage specified on the unit body.
- The power cord is equipped with a «europlug»; plug it into the socket with a reliable grounding contact.
- To avoid the risk of fire, do not use adapters for connecting the kettle to the mains.
- Do not use the kettle in bathrooms. Do not use it near swimming pools or other containers filled with water.
- Do not use the kettle near heat sources or open flame.
- Do not use the unit in places where aerosols are sprayed or highly flammable liquids are used.
- Do not use the kettle outdoors.
- Do not leave the operating kettle unattended.
- Place the kettle on a flat stable surface; do not place the kettle on the edge of a table.
- Do not direct the kettle spout at wooden furniture, electrical appliances, books and objects which can be damaged by moisture, hot steam.
- Before switching the kettle on, make sure that it is placed on the base evenly.
- Use only the base supplied with the unit.
- Do not let the power cord hang from the edge of the table and make sure it does not touch hot surfaces or sharp edges of furniture. You can adjust the power cord length by winding it around the base.
- Do not touch the power cord and the power plug with wet hands.
- Do not switch the kettle on if it is empty.
- Do not fill the kettle with water when it is standing on the base.
- Do not use the kettle if the lid is not closed tightly or without the anti-scale filter.
- Take the kettle off the base before opening the lid.
- Use the kettle only for boiling drinking water, do not heat or boil any other liquids.
- Ensure that the water level in the kettle is not below the minimal mark «MIN» and not above the maximal mark «MAX». If the water level exceeds the maximal mark, boiling water can splash out of the kettle during boiling.
- To avoid burns by hot steam, do not bend over the kettle spout while it is operating.
- Do not open the kettle lid while water boiling.
- Do not touch hot surfaces of the kettle, take it only by the handle.
- Be careful while carrying the kettle filled with boiling water.
- Do not touch the kettle when it is cooling down.
- Be careful when you pour water out of the kettle, do not tilt the kettle sharply and at more than 45°, in case of careless use water may splash and cause harm to the user or their property.
- Unplug the kettle base before cleaning and when you are not using the kettle. Never pull the power cord when disconnecting the base from the mains; take the power plug and carefully remove it from the mains socket.
- To avoid electric shock, do not immerse the unit and the base into water or any other liquids.
- Do not wash the kettle and the base in a dishwashing machine.
- This unit is not intended for use by children.
- Place the unit out of reach of children during the operation and cooling down.
- Do not allow children to touch the unit body and the power cord during the unit operation.
- The kettle is not intended for use by physically or mentally disabled persons (including children) or persons lacking experience or knowledge if they are not under supervision of a person who is responsible for their safety or if they are not instructed by this person on the usage of the unit.
- Do not let children unsupervised to play with the unit as a toy.
- For children safety reasons do not leave polyethylene bags, used as packaging, unattended.

DELIVERY SET
Electric kettle: 220-240 В - 50 Hz
Base - 1 pc.
Instruction manual - 1 pc.

TECHNICAL SPECIFICATIONS
Power supply: 220-240 V - 50 Hz
Rated input power: 1850-2200 W
Maximum water capacity: 1.7 L.

RECYCLING

- For environment protection do not throw out the unit and the batteries (if included) as the usual refuse, do the recycling of the unit operator (if the service life expiration; apply to specialized centers for further recycling. The waste generated during the disposal of the unit is subject to mandatory collection and consequent disposal in the prescribed manner.
- Открыть крышку (9) нажав на кнопку (4).
- Наполните чайник водой до максимальной отметки «MAX», для определения уровня воды пользоваться шкалой уровня воды (7), закройте крышку (5).
- Вставьте вилку сетевого шнур в розетку (8) в электрическую розетку, при этом прозвучит звуковой сигнал и будет мигать индикатор (9).
- Установите чайник на подставку (8), при этом индикатор (9) перестанет мигать и будет светиться постоянно, загорится подсветка кнопки кипячения воды (12) +100°C.
- После включения чайник наклоните кнопку (10) +, при этом прозвучит звуковой сигнал, загорится индикатор (9) и подсветка кнопки кипячения воды (12) +100°C.
- После закипания воды, прозвучит звуковой сигнал, чайник отключится и подсветка кнопки (10) + погаснет.
- Соблюдайте осторожность, слейте воду, при необходимости вскипятите воду еще раз.

WARRANTY
The manufacturer preserves the right to change the design, structure and indicators, do the technical improvements of the unit operator (if the service life expiration; apply to specialized centers for further recycling. The waste generated during the disposal of the unit is subject to mandatory collection and consequent disposal in the prescribed manner.

ENGLISH

- Before taking the kettle off the base (8), make sure that the kettle is switched off (the button (10) + illumination is switched off).

ATTENTION!

To avoid burns by hot steam, do not bend over the kettle spout (2) while it is operating.

USAGE

- Open the lid (5) by pressing the button (4).
- Fill the kettle with water up to the maximal mark «MAX», determine the water level using the water level scale (7), close the lid (5).
- Insert the base (8) plug into the mains socket, you will hear a sound signal and the indicator (9) will be flashing.
- Place the kettle on the base (8), the indicator (9) will stop flashing and will glow constantly and the water boiling button (12) +100°C illumination will light up.
- Place the kettle on the base (8), the indicator (9) will stop flashing and will glow constantly and the water boiling button (12) +100°C illumination will light up.
- Press the button (10) +, again, you will hear a sound signal, the button (10) will light up and the kettle will be switched on in the boiling mode.
- Note: If the kettle is switched off, the indicator (9) and the buttons illumination do not glow, press the water boiling button (12) +100°C, the button (10) illumination will light up, and press the on/off button (10) +, once, the button (10) illumination will light up and the kettle will be switched on in the boiling mode.
- After the water starts boiling, you will hear a sound signal, the kettle will be switched off and the button (10) + illumination will go out.
- Use the unit as intended purposes only, as specified in this manual. Mishandling the unit can lead to its breakdown and cause harm to the user or damage to his/her property.
- Make sure that your home mains voltage corresponds to the voltage specified on the unit body.
- The power cord is equipped with a «europlug»; plug it into the socket with a reliable grounding contact.
- To avoid the risk of fire, do not use adapters for connecting the kettle to the mains.
- Do not use the kettle in bathrooms. Do not use it near swimming pools or other containers filled with water.
- Do not use the kettle near heat sources or open flame.
- Do not use the unit in places where aerosols are sprayed or highly flammable liquids are used.
- Do not use the kettle outdoors.
- Do not leave the operating kettle unattended.
- Place the kettle on a flat stable surface; do not place the kettle on the edge of a table.
- Do not direct the kettle spout at wooden furniture, electrical appliances, books and objects which can be damaged by moisture, hot steam.
- Before switching the kettle on, make sure that it is placed on the base evenly.
- Use only the base supplied with the unit.
- Do not let the power cord hang from the edge of the table and make sure it does not touch hot surfaces or sharp edges of furniture. You can adjust the power cord length by winding it around the base.
- Do not touch the power cord and the power plug with wet hands.
- Do not switch the kettle on if it is empty.
- Do not fill the kettle with water when it is standing on the base.
- Do not use the kettle if the lid is not closed tightly or without the anti-scale filter.
- Take the kettle off the base before opening the lid.
- Use the kettle only for boiling drinking water, do not heat or boil any other liquids.
- Ensure that the water level in the kettle is not below the minimal mark «MIN» and not above the maximal mark «MAX». If the water level exceeds the maximal mark, boiling water can splash out of the kettle during boiling.
- To avoid burns by hot steam, do not bend over the kettle spout while it is operating.
- Do not open the kettle lid while water boiling.
- Do not touch hot surfaces of the kettle, take it only by the handle.
- Be careful while carrying the kettle filled with boiling water.
- Do not touch the kettle when it is cooling down.
- Be careful when you pour water out of the kettle, do not tilt the kettle sharply and at more than 45°, in case of careless use water may splash and cause harm to the user or their property.
- Unplug the kettle base before cleaning and when you are not using the kettle. Never pull the power cord when disconnecting the base from the mains; take the power plug and carefully remove it from the mains socket.
- To avoid electric shock, do not immerse the unit and the base into water or any other liquids.
- Do not wash the kettle and the base in a dishwashing machine.
- This unit is not intended for use by children.
- Place the unit out of reach of children during the operation and cooling down.
- Do not allow children to touch the unit body and the power cord during the unit operation.
- The kettle is not intended for use by physically or mentally disabled persons (including children) or persons lacking experience or knowledge if they are not under supervision of a person who is responsible for their safety or if they are not instructed by this person on the usage of the unit.
- Do not let children unsupervised to play with the unit as a toy.
- For children safety reasons do not leave polyethylene bags, used as packaging, unattended.

ATTENTION!
For additional protection it is reasonable to install a residual current device (RCD) with nominal operation current not exceeding 30 mA, installed RCD, contact a specialist.

SAFETY MEASURES
Before using the unit, read this manual carefully and keep it for future reference. Use the unit as intended purposes only, as specified in this manual. Mishandling the unit can lead to its breakdown and cause harm to the user or damage to his/her property.

ATTENTION!
