Инструкция по синхронизации пульта радио управления (2.4Гц)

1. После установки аккумулятора в игрушку, батареек в пульт и включения обоих, индикатор на пульте начнет мигать. Это означает, что пульт синхронизируется с игрушкой. Когда процесс завершится, индикатор перестанет мигать и выключится.
2. Один пульт может подключаться и контролировать только одну игрушку.
3. Если пульт управления в течение одной минуты не получает ответный сигнал от игрушки, он автоматически уходит в спящий режим (индикатор перестает мигать). Чтобы вернуть его в режим синхронизации, необходимо нажать любую кнопку на пульте.
4. Чтобы прервать соединение между пультом и игрушкой, необходимо выключить оба устройства. После этого, пульт управления можно синхронизировать с другой игрушкой.
