CONGRATULATIONS!

You're the proud owner of the ROCCAT™ Lua – Tri-Button Gaming Mouse, a sleek, compact, ambidextrous gaming instrument that boldly re-masters the traditional three-button mouse with its sophisticated combination of comfort, power and style.

Stylish Illuminated ROCCAT™ Logo

The Lua is a gaming mouse that combines style and substance. Not only does it feature a sleek, attractive profile, but it also has an eye-catching ROCCAT™ logo boldly lit in arctic blue on its rear side – a perfect complement to your other ROCCAT™ gear. You can even set the logo to "breathe", giving the impression your Lua is alive and awaiting your orders.

Adjustable Pro Optic Sensor

The Lua's precision optical sensor lets you game with accuracy and control – keys to success in any battle. And thanks to its dedicated dpi button, you can easily switch between a wide range of settings that fit your gaming style. Quickly choose from 250, 500, 1000, 1250, 1500, 1750, and 2000dpi – and game your way with ease without ever taking your eyes off the action.

Advanced Ergonomics

We built your Lua with a range of features designed to make it as comfortable as possible. For starters, it features a soft touch upper surface that lets you play for extended periods in total comfort. It also boasts perspiration-resistant "No Sweat" side grips that ensure a steady grip during even heated gaming. And the Lua's compact, ambidextrous V-shape makes it ideal for both left- and right-handers.
